- STAT 9. [] LIAISON Received a call from Mr. Beach, House Committee on Standards of Official Conduct staff, who asked if the Agency had a list of all American companies that do business with Haiti. After checking with NFAC/CSS, and [] OLC, I called Beach back and told him that we do not have any such list and went on to say that this is not the kind of information which the CIA is authorized to collect since it does not involve foreign intelligence.
- STAT 10. [] LIAISON Returned via courier to Carol Wiik, House Permanent Select Committee on Intelligence staff, the 30 November 1977 and 15 December 1977 Committee transcripts.
- STAT 11. [] LIAISON Called Pete McGough, GAO, to ask the status of the Reconnaissance/Intelligence study. He said it was in final typing for publication and would probably be published in two weeks. I relayed this to [] OLC. McGough also said GAO was interested in extending some previous clearances which had been canceled. I told him I was not sure that we had reached a firm policy and suggested that they continue to send their requests over. I warned him that they might get turned down.
- STAT 12. [] LIAISON Called Jim Fellenbaum, Senate Appropriations Committee staff, about his questions concerning a special Navy activity, and told him that Admiral Shapiro, Deputy Chief of Naval Intelligence, hoped to brief him on this matter and would be in touch shortly.
- STAT 13. [] LEGISLATION Received a call from Lawrence Storch, State Department, who was calling to return my call. I asked Mr. Storch about the progress the State Department was making on the Title IV (H. R. 12240), "Intelligence Authorization bill" letter. Mr. Storch said that State Department was waiting for our changes, viz., our inclusion in the latest draft of expansible language with regard to the CI impact of Title IV. I told Mr. Storch that it was my clear recollection that as a result of the 22 June meeting the burden was on State Department to make the modifications. Apparently, State has not moved to date to revise the letter. In the interests of time I said we would revise the letter to reflect a greater CI concern and get it to him tomorrow for State's input on a Helsinki conference since that avenue had already been explored and rejected by the other parties of interest.

STAT 7. [] LIAISON Called Michele Farrar, in the office of Representative Paul N. McCloskey, Jr. (R., Ca.), and told her that the Congressman still had not called concerning CBU's and said I did have some information I could share with the Congressman. She said she would remind him of his request again and would ask him to call me.

STAT 8. [] LIAISON David Bushong, Senate Select Committee on Intelligence staff, called to say that the Committee had prepared an interim letter to the Senate Foreign Relations Committee setting forth the Senate Select Committee's conclusions based on a review of documents supplied the Committee by CIA and asked that we review the letter for security implications. Mark Cowan then, over the secure phone, listened to the letter, made some suggestions for minor changes and agreed that the letter with the changes would pose no security problems for CIA.

STAT 9. [] BRIEFING I accompanied [] STAT [] to a briefing of Chuck Snodgrass, House Appropriations Defense Subcommittee staff, Jim Fellenbaum, Senate Appropriations Committee staff, and Guy McConnell, Senate Appropriations Committee staff, on the 7 June 1978 Presidential finding. (See Memorandum for the Record.)

STAT 10. [] LIAISON Frank Conahan, GAO, called saying that they had finished their research on a report they were doing with respect to reconnaissance assets and asked if they could get temporary compartmented clearances for a secretary to type the report. He said if not possible he could arrange to have DIA type the report. I said I would get back to him.

STAT 11. [] BRIEFING Had several telephone conversations with Tom Latimer, House Permanent Select Committee staff, trying to set up a time for the DCI to brief the Committee on the 7 June 1978 Presidential finding. [] will follow up on this.
